

Update to parents – 14 March 2022

COVID-19 Red Level Setting-Phase 3

Dear Parents and Caregivers

Thank you all for your support as we continue to manage the increasing spread of the Omicron variant in our community and try to keep everyone safe. We now have a gradual growing number of confirmed positive Covid-19 cases each day in our school.

As mentioned in past updates if your child is in a class that starts to have a growing number of cases (3 or more), please be assured you will be notified.

It is important that you monitor your children and if they develop symptoms, please ensure you keep them home and get them tested. If your child or a member of your household receives a positive test result, please email our school office as soon as possible office@henley.school.nz and include your child's name and classroom.

You will be aware that anyone who has tested positive for COVID-19 will be required to isolate for seven days, along with all of their household contacts. Day 0 is the day symptoms began or the day the test was taken (whichever came first). Positive cases will isolate for a full seven days and are free to return to normal activities on Day 8, if they are not symptomatic.

If your child lives between two or more households, it can get confusing. If a child has spent a day or night in a home where there is a shared-care arrangement, and someone in that home was infectious at the time, **they are a household contact.**

In the event that your child is self-isolating at home and is well enough, please find the Home Learning links on our school website <https://www.henley.school.nz/assets/PDF-files/Learning-from-Home-10-days-work.pdf>

We appreciate all you are doing to support our community and to stay safe.

Ngā mihi nui
Natalie Doty
